LEDGER

FOURTH YEAR.

MAYSVILLE, KY., SATURDAY, OCTOBER 12, 1895.

If you have friends visiting you, or if you are going away on a visit, please drop us a line to let us know.

William Fritts of Mayfield was visiting in this city yesterday.

Mrs. Melville of Brookville was visiting in this city yesterday.

Mr. Robert Toup of Indianapolis is visiting his parents in this city.

Mr. and Mrs. Ed. Robertson of Omaha, Neb., are visiting Mrs. M. J. Stockton.

Mrs. Anson Mather of New York City, well known in this country, is visiting relatives in Woodford County.

Dr. John S. Hays has returned from Mt. Sterling, where he attended the meeting of the Northern Presbyterian Synod.

Rev. S. F. Taylor, who has been attending the Synod, left today for a visit to Rev. R. F. Caldwell and family at Sharpsburg.

Robert T. Marshall of Fleming was in the county this week, having brought his wife down here to go on a visit to Richmond, Va., her old home.

A. Dut Poffit and James Means, who represented Pulaski Lodge at Bowling Green, passed through the city yesterday on their way home.

Mrs. Fannie Brannon, daughter of "Uncle" Dan Brannon, one of the old residents of Washington, whom everybody knew and liked, is now making her home at Hopkinsville.

Messrs. John F. Mills, John A. Daugherty, W. B. Stone, Wells Dickinson and D. C. R. Carr, members of the Flamingobury Fishing Club, were in the city last night on their way home from West Virginia.

Miss Mary Schellman and daughter Miss Lydia, accompanied by Mr. and Mrs. John A. Black of Titon, left yesterday to visit the former's parents, Mr. and Mrs. H. E. Leonard, of near Russellville.

Messrs. John F. Mills, Alan D. Cole, Thomas Davis, Bryon Rudy, Simon Nelson, James Childs, W. E. Stalcup, W. C. Pelham, Joseph Lower, Mr. and Mrs. John T. Martin and W. E. Smith, all representatives of DeKalb and Household Lodges of this city, have returned from Bowling Green.

Mrs. L. V. Davis is now ready to show a most beautiful line of Trimmed Millinery.

Mrs. Nancy Hughes, aged about 87, died at Pleasant Ridge about 5 o'clock this morning.

It was troubled for a long time with an itching in the eye, which she attributed to Dr. Ayer's Liniment. "But at last, however, recommended Ayer's Hair Vigor, I tried it, and a complete cure was effected." Everyone who has used it speaks well of this dressing.

Rev. George O. Barnes, who is now holding a meeting in Richmond, astounded his hearers Tuesday night with the startling declaration that he would never die, but, like Eliza of old, be transferred bodily into the New Jerusalem.

For the ladies—the trainings which will be much in ladies dresses this winter will be those of last, saving an innovation which is even now most popular. "Fox peeks" win. To those who wish to see a fine sample go to the Courthouse Tuesday night at 8 o'clock and hear that talented and popular author, John Fox.

A little son of Dr. W. F. Taylor, who was here recently on a visit, related that on their journey here once they might have lost just where they had parked in the morning after running all day. He said that passengers on the train said that the trainmen were all drunk, and in switching got the train turned round in some way. He was a very bright lad and seemed to know what he was talking about.

OVIATION TO BRADLEY.

Curilite Republicans Surround His Train This Morning.

The following telegram, received as we go to press, explains itself:

CARLISLE, KY., Oct. 12th.
Public Ledger:
Big ovation given Colonel Bradley here this morning.

Three hundred people surrounded rear of train and cheered for Bradley.

He responded in his usual happy manner.

Everybody cheered with Bradley.

H. B. BAYSON.

A WORD FOR JOSAS.
Sweet and for these I'd gladly die,
My heart is full of love for thee;
Thou art the apple of mine eye,
Say, will thou marry me?
If not—if I am doomed to live
Far from thy sunny glances—
Perhaps, my love, you kindly give
My old friend Josas a chance.

Morris Campbell, the thirteen year-old son of this city who had been missing from his sister's home in Covington since Tuesday last, turned up all right in that city yesterday afternoon. He had been taking an excursion up the C. & O. on a freight train.

MAYSVILLE HONORED.

One of Her Good Adughters Elected Grand Patriarch.

At the recent session of the Grand Lodge, held at Bowling Green, Maysville Oddfellows got their full share of honors.

In the Grand Encampment Mr. Byron was chosen Grand Patriarch—the highest office within the gift of that body, and he will most worthily wear the honor.

And Hon. William H. Cox was re-elected Grand Representative to the Sovereign Grand Lodge, which will next year meet at Dallas, Texas.

The funeral of the late Levi Cain took place at 2 o'clock yesterday afternoon.

The appraisement of the estate of R. B. Cord, assigned, amounts to \$1,925.94.

The committee on responses to Dr.

the report of the committee on response to Dr. Richardson's address on education.

The following subject was chosen

for discussion at the next meeting of

Synod, the discussion to be opened by

Dr. Hemphill and Dr. Green. "How Can

the Meeting of Church Courts be of

Spiritual Profit to the Members of Such

Churches, and Also to Our Private Church

Members."

It was very shabby treatment, it must

be admitted, not only on the part of the

Republican State Committee, but of the

local leaders as well. They seem to

think that Boss Bradley is the only one

to be advertised, and the only one in the

fight.

Colonel Worthington's friends will

probably be heard from later on.

THE LEDGER made diligent inquiry, and

it could find no mortal man who had seen

Colonel Worthington was in Greenup, at

Greenup Friday, October 4th; no appoint-

ville on the 3d or on any other day during this

MAYSVILLE'S GREAT NEED.

An Institution That Makes the

Young Men Good Citizens.

All over this broad land of ours Young Men's Christian Association is springing into existence as fast as the people become aware of the great need of such an institution.

No city in this broad land has a greater need for the popular work of the Young Men's Christian Association than has Mayville; business men in other cities of this size are erecting buildings especially for the prosecution of this work, and endowing special departments, because it is practical and commendable itself to them; the great railroad corporations of the country are erecting Young Men's Christian Association buildings and sustaining them in order that men may come under its influence.

We do not ask today for a special building or for an endowment, valuable though that would be to our work.

As yet the Republicans have not

done enough to help us to get along.

It is the advertising columns of THE LEDGER

which speak for themselves. They show

that people who know how to advertise

know also WHERE to advertise.

it is with us although they had

much more rain there during the early

part of the season, and consequently have

much better corn and tobacco.

The Mayville Commercial Association

has just held a very interesting

session. A well known nurseryman of

Lexington has offered every school in that

county all the shade trees necessary

to shade the schoolyards free of cost.

Among the contestants for a seat in the

Fifty-fourth Congress will be Taylor

Beattie of the Third Louisville District

against Andrew Price. Beattie is a grand-

son of the late Judge Adam Beattie of

this county and was named for the late

John D. Taylor of this city, who married

a Miss Reed, the aunt of Beattie.

The Bourbon Fiscal Court decided to

order a vote on the free絮 question at the November election.

The petition to the court contained 1,593 names, which is a few more than is required by law to secure the election. There is little doubt

but that the free絮 question will carry.

KENTUCKY REPUBLICAN PLATFORM.

We are opposed to the free and unrestricted coinage of silver, believing that it would involve the country in financial ruin. We believe in a sound currency and in the use of both gold and silver for coinage, provided always that a dollar in one is made practically as valuable as a dollar in the other.

We favor a Tariff so regulated as to protect the interests of all classes of our citizens upon articles that are manufactured or produced in this country, thus insuring good wages to the laborer and a home market to the producer; and in connection with this we favor the re-establishment of the doctrine of reciprocity. We believe in a just and moderate Tariff, to meet Government expenses, gradually reducing all its deficiencies, restore public confidence and repel to the rear the undue extension now presenting to the currency. In view of the financial history of the Democratic party, its devotion to the old state system and cold indifference, we affirm that the Republican party can be more safely trusted to regulate the finances of the country.

We favor an American policy which will protect Americans and American interests in any part of the world at all hazards and will sympathize with struggling Republics rather than ignorant monarchies.

REPUBLICAN COUNTY CONVENTION.
By order of the Republican Party, the County Committee of Mason County, the Republicans of Mason county will meet in Mason Convention at the Courthouse in Maysville on Saturday, October 19th, 1862, at 10 o'clock a.m., to nominate a candidate for Representative.

D. P. O'NEAL, Chairman.

Sam T. Hickman, Secretary.

REPUBLICAN COUNTY COMMITTEE.

The members of the Republicans Executive Committee of Mason County are called to meet at Y. M. C. A. Hall in this city on Monday, October 14th, 1862, at 10 o'clock a.m., for the transaction of important business.

D. P. O'NEAL, Chairman.

Uncle Sam's Shortage.

The deficit in the National Treasury for the present fiscal year—from July 1st to date—is \$15,200,000.00.

In view of the probability that the Republican Congress will take steps to increase the Government's revenues by reimposing a duty on raw wool, it is interesting to note that during the time of the McKinley Tariff considerable revenue was secured by the duties on raw wool. It amounted in 1860 to \$6,460, \$852,22, in 1861 to \$6,552,25, in 1862 to \$7,775,05, and in 1863 to \$8,147, 220. This revenue came from raw wool alone, and if the revenue secured by the higher duties on woolen goods were also considered, there would be sufficient revenue to pay all Government expenditures, if that were added to the present revenue obtained from the new Tariff Law.

The Treasury deficit for October has now reached \$7,415,331.16.

The record of the Democratic Tariff so far is this: We sold \$76,000,000 less to Europe last year than the year before, and we bought \$77,000,000 more in Europe last year than the year before. As Exploded Theory, we did the year before. These items are given in round numbers. The total difference is, of course, these two sums combined, or \$153,000,000 in round numbers. This is Democratic performance.

How different it is from Democratic promises. For instance, says the Iowa State Register, in 1862 we were told that the way to increase our exports, the amount we sell to Europe, was to increase our imports, the amount we buy in Europe. If we buy from them they will buy from us. The ships must be loaded both ways. All this and much more. But haven't we bought more in Europe than we used to do under the McKinley Law, \$77,000,000 more in a single year? And haven't the Europeans been ungrateful enough not to increase their purchases from us? This ought to kill that timeworn Democratic argument that the amount we export is governed by the amount we import.

An excellent example of the thing called Tariff reform in practical operation lately occurred in the course of the business of a prominent wholesale clothier of New York City. Tempted by a bait of low price, says the Boston Journal, he had ordered of an English importing house a line of what purported to be 18-months clay worsteds. When the goods were received and opened, the clothier observed a suspicious dampness about them. They were weighed and found to tip the scales at exactly the stipulated 18 ounces per yard. Then the clothier concluded to expose them to the air and dry them. He did so, and when he weighed them again he found that they had meanwhile fallen off to 16½ ounces per yard. That is, the clothier had been buying "cheap" foreign goods and paying for water.

The English manufacturer had deliberately wet his light and flimsy fabrics to bring them up to weight. This is known as "conditioning" and is said to be regularly practiced in England. It would, if so, be estimated, an extra profit of \$5 on every piece of goods which Tariff reform enabled the canny Briton to sell to the unsuspecting Yankees. Under the McKinley Tariff there was a specific duty on the weight, in addition to the ad valorem duty, which made such trickery well nigh impossible.

And Tariff reform was going to give the American people not only cheaper, but better clothing!

DUN'S REPORT.

An Evidence That the Cotton Crop is Short.

Demand for Woolen Dress Goods and Other Specialties.

Widely Circulated Advertisements to Hold Back Cotton Have Some Influence on the Market—Increase in the Number of Farmers in the States and Canada.

New York, Oct. 12.—R. G. Dun & Co., in their weekly review of trade, Saturday says:

The price barometer presents indications that are not entirely favorable. Cotton goods go up with increasing evidence that the crop of cotton is short. Prices of other manufactured products of wool, hides and leather all show some decline. Money markets are neither strong nor weak. The foreign exchange no longer引起 apprehension, and all fears about the great northern crops are past. There have been few advances in wages of labor within the last months, and only a few strikes have been closed by strikes for advances.

In woolen manufactures a demand for dress goods and some specialties keeps many fully employed, but most of the manufacturers are still producing woolens, for which new orders are scarce, and are not enough to keep them running.

It is too early for cotton movements to cast much light on the probable yield; port receipts thus far 23 per cent above those last year do not indicate a surplus, but the market is in view of the known lateness of picking. Widely circulated advices to hold back cotton have some influence also. At present prices averaging 85 cents in southern markets against 95 cents a year ago, 100,000 bales would bring \$15,000,000 more than 900,000 bales brought last year.

Mr. Ellision, the final European authority, shows that 2,977,000 bales were held September 1 in ports and at railheads. While the number at Duluth is so heavy as to absorb vessels and almost arrest shipping.

Failures for the week have included two banks and several concerns of some size, and have cost the nation the United States against 23 last year, and 22 in Canada against 43 last year.

Echoes From the Great National Game Wednesday.

The Cincinnati defeated the Gallipolis Wednesday by a score of 2 to 0. It was a great game. Our old friend "Hobo" Bruner pitched for Gallipolis and the Cincinnati only succeeded in getting six hits off of him.

Pitcher Bruner and Catcher Zimmer of the Gallipolis team may be given a trial by Cincinnati.

The Reds defeated the Ripley nine yesterday afternoon by a score of 4 to 2. It was a splendid exhibition of the National sport.

"Civv" Young won every game he played against the Orioles in the Temple Cup series. Cuppy won one and lost one. "Civv" pitched three times.

The quick work which the Spiders made of the Orioles, with big money in sight if hippodroming was resorted to, is the 1895 vindication of the honesty of baseball.

Pony Moore's All Professionals defeated Ass Burgess's cracked nine yesterday afternoon by a score of 4 to 0. The feature of the game was Charley Crawford's work at second.
